

Dairy Hypochlorite

Chlorine based disinfectant

Description

A chlorine based disinfectant, with a fast, bactericidal action for routine disinfection of all milking parlours, pipelines, dairy utensils & general cleaned surfaces. It mixes easily and is suitable for use in hard or soft water. The 25lt container is sufficient to make 10,000 lts of working solution. Recommended for use with Blusyl and Q'Sol detergents to give sanitising properties.

Features & Benefits

- Chlorine based formulation
- Fast bactericidal action
- Mixes easily, non foaming & rinses freely
- Effective in hard or soft water
- Economical in use

How to Use

PRE-CLEANED EQUIPMENT –

Add 100ml to 40 litres of water (4 fl.oz/10 gall)

MANUAL DISINFECTION: Immerse equipment, ensuring all surfaces are in contact with solution for at least 2 minutes. Rinse off with clean, cold water.

IN-PLACE DISINFECTION: Circulate the solution through the plant for at least 2 minutes. Rinse plant thoroughly with clean cold water & allow to drain completely.

COMBINED SANITISING – May be used with Blusyl or Q'Sol, and other compatible detergents, to give cleaning & disinfecting properties.

MANUAL COMBINED SANITISING

Add the solution to a warm detergent solution. Thoroughly rinse off all of the equipment in clean water. Scrub with solution for at least two minutes, making sure all surfaces make contact with the solution. Rinse off with clean, cold water.

IN-PLACE DISINFECTION: Add the solution to a hot detergent solution. Thoroughly pre- rinse the plant in clean water & run to waste. Circulate solution for 5-10 minutes & then run to waste. Rinse off with clean, cold water & allow to drain completely.

FINAL RINSING

Where chlorinated mains water is not available or if the supply is suspect, Dairy Hypochlorite may be added to the final clean rinse at 25ml/40 litres water (1fl.oz/10gall)

Composition

Contains a blend of Sodium Hypochlorite Solution

Typical Product Data

| | |
|--------------------------|---------------------------|
| Appearance: | Clear Liquid |
| Odour: | Hypochlorite |
| Specific Gravity (20°C): | 1.160 |
| Colour: | Pale Yellow to colourless |
| pH – undiluted: | 12.4 |
| Shelf Life Unopened: | 12 months |

Packaging

| Pack: | Order Code | Pallet Size |
|-------|------------|-------------|
| 25lt | R064K | 24 x 25lt |
| 200lt | R064N | 4 x 200lt |

Storage:

Store in original sealed container and protect from extremes of temperature.

Biodegradability:

All surfactants used in Evans Vanodine products comply with the current European Regulations concerning Biodegradability and protection of the environment.

Quality Assurance

This product is manufactured in the U.K. by EVANS VANODINE INTERNATIONAL PLC whose Quality System is registered by THE BRITISH STANDARDS INSTITUTION Cert of Reg. No. FM 09535
