

EvaFoam

Pre-milking foam

Description

EvaFoam™ may be used as a dip, spray or foam for the cleaning & disinfecting of cows' teats before milking.

It contains the biocides chlorhexidine gluconate & lactic acid, as well as allantoin & glycerol to help smooth and soften the skin.

EvaFoam™ has been tested in a UKAS Accredited Laboratory, passing EN 1656 when tested against common mastitis pathogens in the presence of milk.

Features & Benefits

- Bactericidal formulation
- Cleans & disinfects (passes EN 1656)
- Contains allantoin & glycerol

How to Use

FOAMING PRE-DIP: Fill foaming teat dip cup two thirds full with EvaFoam™. No dilution is required. Squeeze cup to generate the foam. Dip teats of every cow, making sure that the full length of the teat is immersed. Allow 30 seconds contact time, then using a single service paper towel, wipe and dry the teats thoroughly, before continuing with the normal milking routine. Top up with fresh solution as required. Empty and wash out cups after milking.

PRE-SPRAYING: Spray the entire surface of each teat of every cow with EvaFoam™. No dilution is required. Allow 30 seconds contact time, then using a single service paper towel, wipe and dry the teats thoroughly, before continuing with the normal milking routine.

REUSABLE CLOTHS: To clean the udder soak the cloths in a fresh solution of EvaFoam™ diluted 1:200 with water, so that the cloths are damp but not soaking wet. We strongly recommend the use of individual cloths per cow to help prevent the spread of infection. Clean and disinfect used cloths before using again at next milking.

Composition

Contains a blend of Chlorhexidine Gluconate, Lactic Acid, Glycerol, Allantoin, Nonionic Surfactant & Preservative.

Typical Product Data

Appearance:	Clear Thin Liquid
Odour:	Unperfumed
Specific Gravity (20°C):	1.014
Colour:	Pale Yellow
pH – undiluted:	5.00
Shelf Life Unopened:	3 Years

Packaging

Pack:	Order Code	Pallet Size
25lt	R020K	24 x 25lt

Storage:

Store in original sealed container and protect from extremes of temperature.

Biodegradability:

All surfactants used in Evans Vanodine products comply with the current European Regulations concerning Biodegradability and protection of the environment.

Quality Assurance

This product is manufactured in the U.K. by EVANS VANODINE INTERNATIONAL PLC whose Quality System is registered by THE BRITISH STANDARDS INSTITUTION Cert of Reg. No. FM 09535

Revision Date: .0214
