## LIQUID ONE CLEAN

FOR PROFESSIONAL USE ONLY

Liquid "WoolSafe" high performance detergent, suitable for all fibres, safe on stain resist carpets, wool and synthetic. Use One Clean on even commercial carpets, suitable for portable and truck mount use.

### General usage

**End confusion** – If you're thoroughly mixed-up over what type of detergent to use on which fibres, worry not more – **Liquid One Clean**® is the answer.

**Even the major fibre producers agree** – The major fibre manufacturers approve the use of **Liquid One Clean**® on their carpet fibres. Never again will you have to check and see who made the carpet fibre before cleaning in order to find out if the detergent you have is right for it **Liquid One Clean**® cleans them all effectively and safely!

**Lowers your inventory costs** – Before **Liquid One Clean**® was developed, to properly clean all types of carpet and to protect carpet manufacturers' warranties, you needed to stock many types of detergents in order to assure you had the correct one. Now you only need **Liquid One Clean**®.

**Protects your customers' warranties** – You know what a headache it is protecting you customers' manufacturers warranties. Well, now your headaches are over. **Liquid One Clean**® has been approved by the leading fibre manufacturers to protect their warranties when used as directed.

### Hints and Tips

**Easy to use-** For a truck mount 1L with 19 litres of water.

For a portable, you need to mix 30ml with 10L of water

**Tested by the "WoolSafe" organisation as being safe to use on Wool carpet fibres.**
