

# Peradox

## Peracetic acidic based disinfectant

### Description

A clear, colourless liquid terminal disinfectant, effective against a wide range of bacterial, viral & fungal pathogens encountered in intensive livestock husbandry, milk production and processing, and other food and beverage applications. It is fast acting and kills bacteria within 15 seconds, passing EN1656 at a dilution of 1:50 at 10°C. In consequence it may be used with confidence to maintain the highest standards of hygiene.

### Features & Benefits

- Kills bacteria within 15 seconds (passes EN 1656).
- Fast acting formulation
- Economical in use.
- Suitable in all water types.

### How to Use

#### GENERAL LIVESTOCK PROTECTION

Should be used at dilution rates of between 1:100 & 1:200 in cold water according to specific pathogens involved, as well as level of residual soiling encountered at the point of use.

#### POULTRY PROTECTION

May be used in poultry sheds, between flocks, for sanitising the drinking water system. Use at a dilution of 1:50 and allow to soak for 4-6 hours. Rinse the system thoroughly with potable water.

#### IN-PLACE DISINFECTION OF PROCESS PLANT

May be circulated at a dilution rate of 1:200 for the disinfection of milking and milk processing plant following effective cleaning using a suitable detergent.

May also be used at a dilution rate of 1:200 as a combined detergent disinfectant for removal of protein films from milking machines.

#### CLUSTER DIPPING

May be used for cluster dipping at dilution rates of between 1:50 and 1:200 in cold water, according to specific pathogens involved, to kill mastitis causing bacteria.

### Composition

Contains a blend of Peracetic Acid, Hydrogen Peroxide & Acetic Acid.

### Typical Product Data

Appearance:	Liquid
Odour:	Pungent acetic acid
Specific Gravity (20°C):	1.080
Colour:	Colourless
pH – undiluted:	<1.0
Shelf Life Unopened:	2 years

### Packaging

Pack:	Order Code	Pallet Size
25kg	C015H	24 x 25kg
200kg	C015N	4 x 200kg
1000kg	C015S	1 x 1000kg

### Storage:

Store in original sealed container and protect from extremes of temperature.

### Biodegradability:

All surfactants used in Evans Vanodine products comply with the current European Regulations concerning Biodegradability and protection of the environment.

### Quality Assurance

This product is manufactured in the U.K. by EVANS VANODINE INTERNATIONAL PLC whose Quality System is registered by THE BRITISH STANDARDS INSTITUTION Cert of Reg. No. FM 09535

### Revision Date: 1212
