

SANEX

ODOUR DESTROYER

- *Effective against urine odour*
- *Colourless - no fear of staining*
- *Odourless formula - allows for own choice of fragrance*

Sanex is an odour destroyer, formulated for use on virtually all surfaces.

USES

Sanex is a colourless, odourless, low viscosity liquid which is easy to use. Sanex combats unwanted odours by neutralising the odour molecule, and is particularly effective against urine odours.

The product may be used on any surface that is water tolerant, including carpets, mattresses, chairs, hard surfaces, waste bins and chutes, etc.

Sanex is an ideal product for use in care homes, hospitals, hotels, taxis, coaches, etc.

DIRECTIONS

Sanex is supplied in a ready-to-use formulation, so no dilution is required.

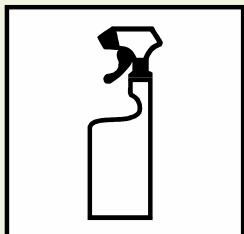

Remove the gross contamination prior to treatment with SANEX. Thoroughly wet the area with SANEX, allow to dry onto fabric and wipe other surfaces dry.

N.B. always test on a small unobtrusive area before use.

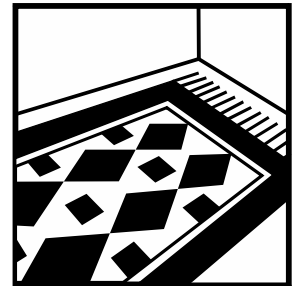

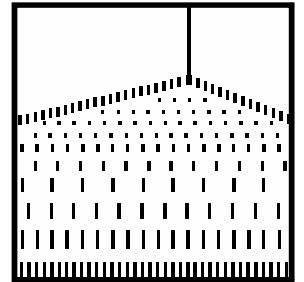

TREATING URINE SPILLS:

FRESH: Urine that has soaked into fabric should be immediately blotted up with paper or cloth. Then wet the area thoroughly with **SANEX** and blot this up with paper or cloth. This quick action will prevent odours.

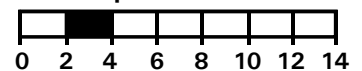

AGED: Urine spills should first be removed from the carpet using a hot water extraction machine and carpet cleaning liquid. Then wet the area with **SANEX** and extract any excess liquid. Allow the carpet to dry.
