

Enhance Extraction Cleaner

Professional carpet care made simple

Extraction Cleaner for Carpets

- ▶ Unique formula
- ▶ Contains Odour Neutralising Technology
- ▶ Safe to use on all carpets

Unique formula

- ▶ Enhance Extraction Cleaner is a concentrated extraction cleaner for the periodic cleaning of all types of carpet and upholstery. The formula for Enhance Extraction Cleaner contains a special combination of wetting and emulsifying active ingredients delivering excellent cleaning performance.

Contains Odour Neutralising Technology

- ▶ Enhance Extraction Cleaner contains odour neutralising technology. This technology works to destroy the malodours in carpets and furnishings leaving a fresh apple fragrance.

Safe to use on all carpets

- ▶ Enhance Extraction Cleaner can be used on all carpet types as the formula is PH neutral and is endorsed by the woollsafe organisation.
-

Enhance Extraction Cleaner

3 Simple Stages to Professional Carpet Care

Step One: Daily Cleaning

- ▶ Use Enhance spot and stain as part of your daily carpet care program to treat carpet spots and stains.

Step Two: Intermediate Cleaning

- ▶ Use Enhance Foam Shampoo to either wet or dry shampoo your carpets as part of your intermediate carpet care program to restore appearance of your carpets and prolong the life of your carpet.

Step Three: Periodic Cleaning

- ▶ Use Enhance Extraction Shampoo to deep extraction clean your carpets as part of your periodic carpet care program. Extraction cleaning will restore the appearance of your carpets and will remove deep dirt and odours leaving carpets clean and fresh.
